FRUIT AND SHADE TREES
SMALL FRUITS, ROSES, VINES
AND SHRUBBERY

TOPPENISH, WASHINGTON

Sept 4, 1923

TO THE TRADE:

Here is our list of THOROUGHLY MATURED trees, which we will have ready for delivery beginning about October 25th. We have had a very favorable growing season and the stock is making up in grades and caliper in splendid shape.

BUSINESS IS GOOD. We have a great deal more wholesale business booked today than we had at this time last year. Fruit growers in almost every line have made good money this year, and while we do not look for an abnormal trade, a good steady demand can be expected, which will clean up practically all staple items. Therefore, check your want list and order now while our assortment is fairly complete.

TERMS: Our terms are the standard terms adapted by the Association, and are as follows: Cash, or satisfactory references before shipment. To established nurserymen who are known to us, or who give necessary references, a credit of sixty days from date of invoice will be allowed, with discount of 3% for cash with order, or 2% discount in ten days from date of invoice, or 1% discount in thirty days. In no case shall terms or credit extend beyond June 1st. The usual deposit is requested on advance orders.

Our usual high standard of quality and packing will be maintained. REMEMBER WE GUARANTEE TO PLEASE YOU.

SEEDLINGS

As the largest seedling growers in the West, we are in a position to offer you a good assortment in the different grades of Apple, Mazzard and Myro. In spite of our heavy planting of Japan Pear, French Pear and Ussuriensis, we are now sold up and will have no more to offer this season.

Our seedlings have been widely distributed in almost every State of the Union during the past two years, and have everywhere given the very best of satisfaction. In many cases they were planted alongside of foreign grown stock, and stock grown elsewhere in the United States, and the success attained has resulted in many repeat orders. We still have a fairly good supply of apple, but if you have not already ordered we would suggest your doing so now.

Remember, we have moisture under control, are able to keep the stock growing continuously throughout the growing season, then our crisp, dry fall weather enables us to ripen the stock thoroughly. We know how to dig, grade and pack right, and guarantee that our stock will give you satisfaction.
